

## **Bosch Motorsport exhibits at Autosport International 2012**

Bosch exhibited at the four day Autosport International 2012 Show at the Birmingham NEC from 12<sup>th</sup> to 15<sup>th</sup> January.

Autosport International, organised by the Motorsport Industry Association (MIA), is Europe's largest motorsport event for industry professionals and motorsport fans alike.

The Bosch stand featured the new Aston Martin Vantage GT4, which is fitted with the latest technology including the race-developed Bosch Motorsport ABS M4 and traction control system. Bosch also showcased its new Sport Line DDU 7 dash logger – specifically designed to give a live data feed of vital information in motorsport racing.

There was keen interest in products such as the ABS motorsport kit and Bosch high pressure fuel injection systems, which had previously been fitted to the World Rally Championship Mini's.
