

## **Bosch introduces a new compact steam oven for nutritious healthy cooking**

Looking forward to enjoying chocolate treats over the Easter period? Now you don't have to feel so guilty about over indulging this holiday with Bosch's new compact steam oven for nutritious and healthy cooking.

The oven has five steam levels for flexible cooking and three cooking levels offering complete versatility. The oven has 20 automatic programmes taking the guesswork out of cooking. The oven is designed to co-ordinate with the existing Exxcel range of ovens and compact appliances.

The new Bosch Exxcel compact steam oven is the perfect add-on appliance for delicious, healthy meals. Steam cooking not only seals in flavour and moisture but it also helps retain food's nutrients and vitamins, far more so than boiling. The appliance can be used for a wide range of dishes, from rice, fish, vegetables, sauces and desserts. Making it the perfect companion to try out some delicious Easter recipes, such as hot cross buns and Easter nest cake.

The HMT85DL53B steam oven has five steam levels – 40°, 60°, 80°, 90° and 100° - which can be used for steaming, reheating, defrosting and cleaning. Inside the 22-litre cavity, there are three levels for flexible cooking along with 20 automatic programmes to cook meals to perfection, an LED interior light, a de-scaling function and side-opening door. Its 36cm compact design makes it suitable for kitchens of all sizes. Designed for wall unit installation or into a tall housing, the Exxcel HMT85DL53B is compatible with Bosch side-opening microwaves for a sleek, coordinated look.
