

## Bosch Product Guarantee Rises to Four Years on Selected Freestanding Appliances

To celebrate 125 years of Bosch, the water and energy saving appliance brand (Bosch Siemens) is adding an extra two years to its standard two-year guarantee, giving customers even greater peace of mind with a four year guarantee that includes call outs, parts and labour. The promotion will run from 14th September until 31st December 2011 on selected Bosch freestanding dishwashers, washing machines, tumble dryers, fridges and freezers.

Included in the promotion is the revolutionary Bosch Exxcel AquaStar dishwasher (SMS65E12GB), which uses just 6.5 litres of water to wash a full 13 place setting load and is rated A++ for energy. The Exxcel 7 VarioPerfect washing machine (WAQ28460GB), which uses sensors to control the precise amount of water needed for each wash cycle, ensuring only the optimum amount of water is used for each and every wash is also included. This water saving machine is A+++ rated for energy efficiency.

To claim, simply visit [www.bosch-home.co.uk](http://www.bosch-home.co.uk) for more information and to view qualifying appliances.
