

Implementation Statement

Bosch UK Retirement Benefits Scheme

This Implementation Statement has been prepared for the Trustees of the Bosch UK Retirement Benefits Scheme (the “**Scheme**”) and sets out:

- How the Trustees’ policies on exercising rights (including voting rights) and engagement policies have been followed over the year.
- The voting behaviour of the Trustees, or that undertaken on their behalf, over the year to 31 December 2020.

How voting and engagement policies have been followed

The Scheme invests entirely in pooled funds, and as such delegates responsibility for carrying out voting and engagement activities to the Scheme’s fund managers.

The Trustees undertook an initial review of the stewardship and engagement activities of the current managers at their **18 February 2020 Investment Sub-Committee (ISC)** meeting, and were satisfied that their policies were reasonable and no remedial action was required at that time.

The Trustees receive and review voting information and engagement policies from both the asset managers and our investment advisors from time to time, including at our ISC meetings. We review this information to ensure alignment with our own policies.

Having reviewed the above in accordance with their policies, the Trustees are comfortable the actions of the fund managers are in alignment with the Scheme’s stewardship policies.

Voting Data

Voting only applies to funds that hold equities within their portfolio. As such, this will only include the LGIM Global Equity 60:40 Index, the BNY Mellon Long Term Global Equity Fund, the BlackRock Aquila Life 30:70 Currency Hedged Global Equity Fund, the BlackRock Dynamic Diversified Growth Fund and the Schroders equity portfolio. The investment managers of these funds vote on behalf of the Trustees and information on the votes made over the year are summarised over the next few pages. This has been displayed for the Bosch Section and the BSH Section separately.

Schroders were unable to provide information regarding the voting recommendation of its proxy advisor. As such, this information is not shown for these funds.

The Trustees’ investment consultant is liaising with the managers to improve delivery of the data in future, and we understand that the managers are working to improve their disclosures.

Significant votes

For the first year of implementation statements the Trustees have delegated to the investment managers to define what a “significant vote” is. This may differ from the Trustees’ view of significance, but this is being worked on in the hope that this can be improved for next year.

Schroders did not provide many details on their significant votes throughout the year, such as the size of the fund’s holdings, the outcome and implications of the votes.

Schroders North American Equity Fund

	Vote 1	Vote 2	Vote 3
Company name	Costco Wholesale Corporation	Apple	The Walt Disney Company
Date of vote	22 January 2020	26 February 2020	11 March 2020
Summary of the resolution	Proposal 3: Advisory vote to ratify named executive officers’ compensation.	Proposal 6: Report on freedom of expression and access to information policies.	Proposal 5: Report on lobbying payments and policy.
How the manager voted	Against	For	For
Rationale for the voting decision	Minimum vesting period is less than 3 years.	The company already provides a good level of reporting on human rights, however given the societal importance of the topic, a vote ‘for’ is warranted in this case.	While the company has improved its disclosure in recent years, there is limited evidence that the board has direct oversight and is monitoring the potential misalignment between the company and the associations of which it is a member.
Criteria on which the vote is considered “significant”	Schroders voted against management.		

Schroders Europe Fund

	Vote 1	Vote 2	Vote 3
Company name	Saab	Lagardere	Thales
Date of vote	1 April 2020	5 May 2020	6 May 2020
Summary of the resolution	Proposal 14c: Approve transfer of shares for previous year's incentive programs.	Proposal A-P: Dismiss various Supervisory Board Members and elect new ones.	Proposal 10: Authorise up to 1% of issued capital for use in restricted stock plans.
How the manager voted	Against	For	Against
Rationale for the voting decision	Schroders are not supportive of the incentive plan this would fund.	Supportive of wholesale change to the Supervisory Board.	Lack of disclosure around the performance conditions attached to the plan.
Criteria on which the vote is considered "significant"	Schroders voted against management.		

Schroders Japanese Opportunities Fund

	Vote 1	Vote 2	Vote 3
Company name	Hi-Lex Corporation	Toyota Industries Corporation	SRA Holdings
Date of vote	25 January 2020	9 June 2020	24 June 2020
Summary of the resolution	Proposal 5: Approve takeover defence plan (poison pill).	Proposal 1.2: Elect director Akira Onishi.	Proposal 1.1: Elect director Toru Kashima.
How the manager voted	Against	Against	Against
Rationale for the voting decision	Poison pill not in shareholders' best interests.	Lack of gender diversity on the board.	Lack of gender diversity.

Schroders Institutional Pacific Fund

	Vote 1	Vote 2	Vote 3
Company name	NEXON Company Limited	Tencent Holdings Limited	Techtronic Industries
Date of vote	25 March 2020	13 May 2020	15 May 2020
Summary of the resolution	Proposal 1.1: Elect director Owen Mahoney.	Proposal 5: Approve issuance of equity or equity-linked securities without pre-emptive rights.	Proposal 3c: Elect Vincent Ting Kau Cheung as director.
How the manager voted	Against	Against	Against
Rationale for the voting decision	There is a lack of gender diversity on the board.	The share issuance limit exceeds 10%.	Non-independent director serving as remuneration committee chair.
Criteria on which the vote is considered "significant"	Schroders voted against management.		

Schroders Emerging Markets Fund

	Vote 1	Vote 2	Vote 3
Company name	National Bank of Kuwait	Ping An Insurance Group	WEG
Date of vote	7 March 2020	9 April 2020	28 April 2020
Summary of the resolution	Proposal 10: Approve directors' loans for financial year 2020.	Proposal 9: Approve issuance of equity or equity-linked securities without pre-emptive rights for H shares.	Proposal 1: Amend articles to comply with new regulations of Novo Mercado of B3.
How the manager voted	Against	Against	Against
Rationale for the voting decision	Lack of disclosure.	Issuance limit exceeds 10% without pre-emptive rights.	Reduction of governance standards.
Criteria on which the vote is considered "significant"	Schroders voted against management		

Schroders Institutional Developing Markets Fund

	Vote 1	Vote 2	Vote 3
Company name	NEXON Company Limited	Turkiye Petrol Rafinerileri AS	Ambev SA
Date of vote	25 March 2020	1 April 2020	24 April 2020
Summary of the resolution	Proposal 1.1: Elect Director Owen Mahoney.	Proposal 9: Approve Director remuneration.	Proposal 7: Amend restricted stock plan
How the manager voted	Against	Against	Against
Rationale for the voting decision	Lack of board diversity.	Director remuneration not disclosed	High discretionary element to plan.

	Vote 1	Vote 2	Vote 3
intent to the company ahead of the vote?			
Rationale for the voting decision	The resolution proposed by Barclays sets out its long-term plans and has the backing of ShareAction and co-filers.	Disclosure to encourage a better understanding of process and performance of material issues (resolutions 5-8, 10, 13, 15 and 16). Governance structures that benefit long-term shareholders (resolutions 9 and 14).	Under LGIM's annual 'Climate Impact Pledge' ranking of corporate climate leaders and laggards, they announced that they will be removing ExxonMobil from their Future World fund range, and will be voting against the chair of the board.
Outcome of the vote	Resolution 29: supported by 99.9% of shareholders. Resolution 30: supported by 23.9% of shareholders.	Resolutions 5-8 and 14-16: supported by approx. 30% of shareholders. Resolutions 9 and 10: supported by 16.7 and 15.3% of shareholders respectively. Resolution 11-13: supported by 6.1%, 1.5% and 12.2% of shareholders respectively.	Re-election of Darren Woods: supported by 93.2% of shareholders. Independence and Lobbying: supported by approx. 30% of shareholders.
Implications of the outcome	LGIM's focus will now be to help Barclays on the detail of their plans and targets. LGIM plan to continue to work closely with the Barclays board and management team in the development of their plans and will continue to liaise with ShareAction, Investor Forum, and other large investors, to ensure a consistency of messaging and to continue to drive positive change.	LGIM's engagement with the company continues as they push it to disclose more and to ensure it is adequately managing its broader stakeholders and its human capital.	LGIM believe this sends an important signal, and will continue to engage, both individually and in collaboration with other investors, to push for change at the company. Their voting intentions were the subject of over 40 articles in major news outlets across the world, with a number of asset owners in Europe and North America also declaring their intentions to vote against the company.
Criteria on which the vote is considered "significant"	Throughout 2020 there has been significant client interest in LGIM's voting intentions and engagement activities in relation to the 2020 Barclays AGM. LGIM consider the outcome to be extremely positive for all parties: Barclays, ShareAction and long-term asset owners such as their clients.	The market attention was significant leading up to the AGM, with 12 shareholder proposals on the table. There were also diverse investor coalitions submitting and rallying behind the proposals as well as multiple state treasurers speaking out.	LGIM voted against the chair of the board as part of their 'Climate Impact Pledge' escalation sanction.

Fund level engagement

The investment managers may engage with investee companies on behalf of the Trustees. The table below provides a summary of the engagement activities undertaken by each manager during the year for the relevant funds.

LGIM were unable to provide engagement data at a fund level, so the data is given below at a firm level for LGIM. The individual gilts that the Bosch section is invested in have been collated under the Single Dated Gilt Funds title. The Schroders Cash fund is not shown below due to the limited

engagement opportunities available to a fund of this nature. The Schroders Emerging Markets and Developing Markets are combined as Schroders provided information at a strategy level. Walter Scott was unable to provide the number of engagements on a fund level over 2020.

If the vote was against management, did the manager communicate their intent to the company ahead of the vote?	BlackRock discussed with Exxon their concerns regarding their climate risk management.	BlackRock voted with management.	BlackRock discussed a range of topics with Chevron including climate reporting.
Rationale for the voting decision	BlackRock voted against both directors because there was insufficient progress on the Task Force on Climate-related Financial Disclosures aligned reporting and related action. The For vote came from a belief the board would benefit from a more robust leadership structure.	Shell's disclosures are consistent with BlackRock's expectations of large carbon emitters and as such are of no concern.	Greater transparency into the company's approach to political spending and lobbying as aligned with their stated support for the Paris Agreement will help articulate consistency between private and public messaging in the context of managing climate risk and the transition to a lower-carbon economy.

If the vote was against management, did the manager communicate their intent to the company ahead of the vote?	Item 25 was voted against management, but BlackRock didn't communicate this to BHP.	Item 5 was voted against management. This is in line with in line with BlackRock's approach of holding directors accountable when a company is not effectively addressing a material issue.	The election items were voted against management, this is described in BlackRock's Global Engagement Principles. This states that board members will be held accountable for not effectively addressing material issues.
Rationale for the voting decision	<p>BlackRock does not generally support constitutional amendments resolution, as the relative ease of the filing process increases the risk that these types of proposals are potentially distracting, time-consuming or are submitted by shareholders whose interests may not be necessarily aligned with those of the broader shareholder base.</p> <p>BlackRock supported item 25 to signal the importance of the opportunity for BHP to further advance the global energy transition.</p>	The lack of progress on climate-related reporting led to the Against vote, while the For votes were due to these being new to the board.	There was insufficient progress on climate reporting for the election items. BlackRock see item 5 as too prescriptive, hence the vote Against.

Fund level engagement

As for the Bosch section, LGIM were unable to provide engagement data at a fund level, so the data is given below at a firm level for LGIM. The individual gilts that the BSH section is invested in have again been collated under the Single Dated Gilt Funds title, similarly for the index linked gilts.
